This is a great opportunity for those who missed the previous events, or who have subsequently accumulated unwanted, unused prescription drugs, to safely dispose of those medications.

Americans that participated in the DEA's third National Prescription Drug Take-Back Day on October 29, 2011, turned in more than 377,086 pounds (188.5 tons) of unwanted or expired medications for safe and proper disposal at the 5,327 take-back sites that were available in all 50 states and U.S. territories. When the results of the three prior Take-Back Days are combined, the DEA, and its state, local, and tribal law-enforcement and community partners have removed 995,185 pounds (498.5 tons) of medication from circulation in the past 13 months.

Officers will be posted at each of the locations stated above to collect the medications brought for disposal. Tell friends and neighbors in your area. Let's make this the best Drug Take-Back Program Day yet.
